\$1,000

Systematic Withdrawal Plan (SWP):

Yes

¹ PAC can only be initiated once the \$150,000 minimum initial investment has been met. ² Distributions are not guaranteed.

Manulife Private Investment Pools offer tax-efficient corporate classes for non-registered accounts. Series T securities are also available for investors looking for tax-efficient cash flow from their investments.

Corporate class provides three distinct ways to help pay less or defer tax on your non-registered investments

1. TAX-EFFICIENT GROWTH/INCOME

Investors may not pay any tax on capital gains until their investment is redeemed or a capital gains dividend is paid to them, enabling more of their money to stay invested and compound over a longer period of time. However, when distributions, other than a return of capital are paid they will only be in the form of tax-efficient ordinary Canadian dividends or capital gains dividends, allowing investors with non-registered assets to pay less tax.

2. TAX-EFFICIENT REBALANCING

Investors are able to rebalance their portfolios and switch between different class pools without immediate tax consequences. Switching pools or rebalancing asset allocations within the corporate class structure will not trigger any realized capital gains. Capital gains are only realized when corporate class shares are redeemed or sold, or a corporate class pays a capital gains dividend.

3. TAX-EFFICIENT CASH FLOW USING SERIES T[†]

Investors have the option to receive tax-efficient cash flow from their investments using Series T corporate class pools. The target annual payout resets each year and is a percentage of the net asset value (NAV) as at December 31st of the previous year.* Investors also have the ability to customize their monthly cash flow received up to a payout rate of 6 per cent (distributions are not guaranteed).

[†]Series FT, LT and CT are also available for most pools. *For Manulife U.S. Fixed Income Private Trust and Manulife Global Balanced Private Trust, prior to January 1, 2014, the Series T has a target distribution rate per annum based on an initial issue price of \$15.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you. Past performance may not be repeated. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The payment of distributions is not guaranteed and may fluctuate. If distributions paid by the fund are greater than the performance of the fund, then your original investment will shrink. Distributions should not be confused with a fund's performance, rate of return, or yield. You may also receive return of capital distributions from a fund. Please consult with your tax advisor regarding the tax implications of receiving distributions. See the prospectus for more information on a fund's distributions policy. Manulife Funds (including the Trust Pools) and Manulife Corporate Classes (including the Class Pools) are managed by Manulife Investments, a division of Manulife Asset Management Limited.
